QUALITY DOES NOT COST, IT PAYS

US-AirTob style barn,
Save on average of 37% in Total
Curing Costs compared to
conventional barns

When growers decided to consider new barns they looked at construction and energy efficiency. The World Tob Inc. barns offered both, the barns are fuel efficient because of the **lack of heat loss and the proper airflow**. World Tob barns are simple to use and energy efficient with better than average insulation. The airflow is consistent throughout the barn, **along with the good insulation and precision curing helped cut back a great deal on electricity and fuel costs.**

The leaf in the World Tob barns is cured evenly with amazing color!
